

CD and DVD Black Thermal Print Template

We use a black thermal transfer direct to disc print system. This system is only suitable for basic text and logos only. Please supply your artwork for this template as a high quality JPEG (300dpi) or TIFF file .

Artwork can be sent on disc or uploaded to our FTP site (details below).

Please call to let us know once you have sent or uploaded your artwork so we can retrieve it without delay.

FTP details:

Server: files.iccduplication.co.uk

Username: duplication

Password: arnold

Please ZIP or STUFF artwork into a single file before uploading.

Upload artwork to the root directory.
