

Cassette Label Template

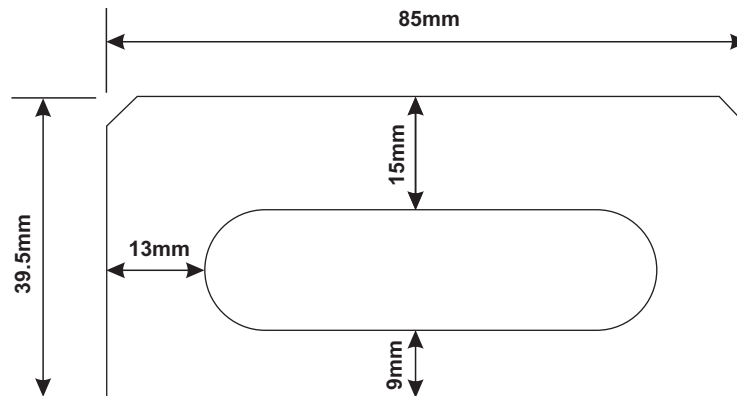

Side 1 & 2 are the same

ICC
DUPLICATION

HX PRO
B NR

Use Dolby Logo if required

On-Body artwork should be supplied black & white on a CD, Zip, Floppy or via ISDN or E-mail. Please provide a laser or ink-jet printout. Please be careful when preparing artwork that you use a font size, say minimum 6pt, so that the type does not fill in when going to print. Ensure that logos and lines are not too fine as to not print well. We suggest a line width no less than $\frac{3}{4}$ pt. All copy should be at least 1.5mm away from the edge of our template. Remember to save any fonts or bitmaps used.
